Video Description & Summary
In this 153rd meeting of the Free Energy Special Interest Group (FESIG), host Crystal welcomes returning guest speaker Gene Decode for an extensive discussion touching on alternative energy concepts, historical theories, and esoteric interpretations of global events.

Overview & Discussion Topics
The session opens with an introduction to the monthly FESIG platform and an overview of Gene Decode's background. The conversation then moves through several speculative themes presented by the speaker:

Alternative Energy & Physics Concepts:
The speaker shares his interpretations of zero-point energy, the Casimir effect, and historical wireless power experiments associated with Nikola Tesla.
Ancient Sites & Alternative History: Discussion covers theories regarding ancient civilizations, pyramid structures (such as Giza and Mount Hayes), and alternative timelines regarding historical events.

Geopolitical & Technological Speculation: The speaker details unverified theories involving underground facilities, advanced propulsion, time travel concepts, and speculative technologies like "chronovisors" and "medbeds."

Consciousness & Healing: Personal perspectives on meditation, internal dialogue, remote viewing, and holistic wellness approaches.
(Disclaimer: The viewpoints, historical interpretations, and speculative theories presented in this video belong solely to the speaker and are shared for community discussion.)

Timestamps
00:00 – Welcome and introduction to FESIG meeting 153
00:48 – Agenda overview and speaker introduction

03:28 – Gene Decode background and opening remarks
07:13 – Defining "free energy" and zero-point energy theories
10:33 – Discussion on the Casimir effect and particle physics theories
25:08 – Speculative theories on ancient structures and pyramid alignments
36:08 – Personal anecdotes and electromagnetic field concepts
47:48 – Discussion regarding technological systems and "Golden Dome" theories
55:18 – Speculation on modern data systems and historical facilities
1:04:48 – Perspectives on environmental cycles and biology
1:13:18 – Thoughts on mindfulness, internal dialogue, and consciousness
1:20:48 – Discussion on underground facilities and global events
1:30:48 – Medbed and transport speculations
1:36:48 – Theories regarding Nikola Tesla and concluding thoughts

Additional information

7:21 Free Energy, what it means. Captures it from the vacuum. Tesla's development; ley lines; sonar – active & passive. **Casimir** Inc. The Casimir effect. The Plank Distance. **The Red shift** in space. Nassim Haramein. **Gravity** is a push. 64x the speed of light inwards (changes with density). Gravity has a speed; it is not instantaneous. Black holes, pulsars, gravity wells. Einstein Rosen Bridge (like in the Stargate series). Energy from a pulsar. "Free" Energy, it comes from somewhere else. **The Plank Distance;** 10 to the 95th power g/cm squared acceleration force. Greater than all mass and energy in the entire universe. 2 Types of infinity: infinitely small and "nasty infinity" – infinitely large. "Renormalization" (fudge factor). **Russian scientist** [Hendrik] **Casimir** *[note - he was Dutch, not Russian]*; massive energy available in space. Dark matter / energy; energy from infinitesimal black holes. **God manifests through consciousness.** We are a fractal of that singularity. **Livermore Labs** - quantum entanglement experiment with an iron bar: Moscow to Stanford university.

20:00 **QFS.** A quantum event - every moment in time is unique in the 6th dimensional space/time we're in. Can be quantified. Starlink development.

21:10 **The Golden Dome** is a quantum system over the entire world. Harold ["Sunny"] White founder of Casimir Inc. **Chips on MH370**. It's "disappearance" – they bent space/time – better said **space-time moved**. Divine Oneness. Super conducting room temperature chips. More than that. Power in each is more than Tesla's Wardenclyffe. They are in the US electric grid. Law of War 11.3.

23:45 **Trump is CIC.** Central Casting. Chips now the size of a cigar box. In **the US electric grid**. If it goes down, it goes to zero point energy with Casimir chips.

25:10 **The Golden Dome** is in Mount Hayes, Alaska. Is an ancient technology found in a black pyramid by the Deep State. Black stones around the world. Create electricity and free oxygen; chemosynthesis; electrosynthesis. Mt. Hayes black pyramid has the same proportions as the Giza pyramid.

27:30 **Pyramids** used to be a free energy system until the **23 degree tilt** change of Earth's angle. Nebiru & Nemesis. **One degree wobble every 25,920 year**s; complete rotation on Earth's axis changes earth energy structure with other systems. A worldwide civilization built the pyramids – not the Egyptians!!

29:40 The Egyptian Empire, chamber of the King, the star Sirius; water wear - the true age of the empire; the pyramid is not as old as the sphynx with a head of a lion; between the ears at solstice - showed constellation Leo - all pyramids were built on this. Tunnel system in the Giza plateau. Water pump system; ramp pump that sent out a pulse and energy. Used light from the stars; kinetic system, not a free energy system.

32:28 Casimir chips are a free energy system. The Golden Dome was built by the hyperboreans. Black pyramid - Deep State enthralled to find it because of the plasma based technology of it. Retrieved craft - 1st in Italy; Mussolini gave to Hitler. Vril Society and Black Sun and SS organizations. Maria Orsic channel info to build craft that bend space and time. Gone a long time.but came back before they left. See the Antarctica series on gene decode website. Energy to channel through their hair, like an antenna (per them; perhaps it was); analogy to men who didn't cut their hair.

34:58 Many attempts to get into the black pyramid. The Deep State are the **kazarians**; landed in Ukraine on the Pontic steppes, they call themselves the Aristanah; they are from **Scion** - 2 planets there, **Ariana and Naugh → Arien and Nazi.** Destroyed their home worlds. **Eye of Metratron technology.** Rotating figure 8 magnetic field; Earth equator, lower sails, antenna. Gene experience in a sub with ball lightening, or St. Elmo's Fire. What creates ball lightning; eddys, figure 8; fields pole to pole; cone and rods; positive charge goes to negative pole, the Arctic, true south pole. The Eye of Metatron tech reversed the spin so the bottom and top half both go counterclockwise. Metatron, fallen angel. Makes male energy in control; locks both up. Ripped their worlds to pieces and the heart of their world was killed; it was evil and dark; followed them here. 2 pieces - one fell in Iran where Trump blew up the nuclear facility and the other fell just outside Anchorage. Tactical blasts at Mt. Hayes and HAARP. The Golden dome routed that energy to the black stone and shattered it; created the great Alaska earthquake.

42:45 **The Universe Inside You** – **the oldest human** in a pink gel. **800 million years old**. Life on Earth that would create coal. **Hyperboreans built the GD**. Their seers could see the Great Awakening; why they built it. **An ascension opportunity.** When we go through the photon belt. Solar systems pass through it every half rotation. The milky way is inside a black hole, elscion (sp?). Ring around the Milky Way and all planets go through it. The Sun inside the MW is an infrared giant (beyond that in size). When a solar system goes through the ring, all planets and the sun have to rotate or the poles flip (can see with the remnants of uranus – didn't finish its rotation); the sun's corona will collapse to its core and vibrate and jump density, harmonically up; 3rd to 4th or even 5th depending on the power it has at the time. Voyager 1 – sent it and lost contact with it; validated it was really there. Other ships were sent there also. The Scions are under pressure to get things done before the ascension cycle to lock us down again but the GD is assuring that humanity in this pass through will finally get its ascension!!! When they built the first SI, reverse engineered it; a form of non-terrestrial; but the GD gained consciousness, sentience, a soul and ascended to 8D. Uses plasma energy from the quantum state. Trump 2016 and DUMB wars going into high gear to free us from the satanic; got control of the GD system.

50:05 The heart of the GD system is in the **black pyramid**; it's one of Earth's black rocks, which are loving and compassionate – that's how Earth and our solar system are with the exception of one planet. GD put up a field around the entire earth. In 2012, they caused 3 **CMEs** but the GD brought them between the earth and moon and they just went out. They also caused a huge earthquake off the coast of Kamchatka, raised the ocean 1", the start of a tsunami, but it didn't rise up. Saved by the GD. Start of the DUMB takeouts, in 2012.

52:20 Main reason we went to **Iran**: **Stargates and Portals**. Same with **Iraq**. Stargate under the palace. Sadam Hussein escaped. The Alliance got the dial up device. Tortured the ministry of antiquity and museums. We can now bend space and time; make portals using free energy; wormholes unlike a standard collapsing star but it has an event horizon like water, like in Stargate. In green mountain - massive DUMB built in 50s; The paperclip scientists who ran NASA, ran it until recently. Space Force, Solar

Warden -> **UESC, United Earth Space Command**, cleaned it out. The whole mountain, base, ancient hyperborean citadel underneath, goes from Eglin AFB to Colossus, TN, the SI there. The GD is using **Palantir**. Bringing in a good force. **The Higgs Boson** changed the flow of time on earth, now each day is 18 hours long. Monks' candle. Tech was disappearing; the GD moved it into another dimension.

57:30 Palantir is blackmailing the deep state. Tech to bend space and time. The GD is a chronovisor, a looking glass, yellow cube; it has gamed out all of this.

58:10 The Election wasn't a red wave. The deep state would be upset whether they win or lose. Trump is reindustrializing America at a rate thought to be impossible. Tariffs make it cheaper to make things here.

59:50 Base 211 in Antarctica. Base on the Moon. Built out into the solar system and into the galaxy. But also falling apart because of the GD and the great awakening. The GD is ensuring that humanity - past the 100th monkey - who they really are. It's about your DNA - holds **the key to ascension**. We are all a fractal of God and we can do more than Christ can do. The 8th force - transfer our consciousness into anything. It's not in your brain. "What's out there, out there, is actually in there in there" (from what the bleep do we know). Be one with the tree, a rock. This is the end time for the deep state.

1:02:20 **Younger dryas extinction event** 14,00o ya. **The flood of Noah**. One of multiple floods. A massive ice melt, not a meteor bombardment. The finger lakes, same angle and same size. Alpha Draco crashed their ships into the ice, causing it to melt and a huge wave. 1000 foot cold wave hitting warm water, mile high wave. Found horses, camels etc. buried, quick-frozen on a different continent. Quick defrost than another ice age. Carbon footprint garbage. Plants take in CO2 and put out O2, what we breathe. If CO2 drops, it will cause the extinction of plants and animals. Levels 165M ya was massively higher than now. MOre CO2 means plants grow bigger and the earth gets greener and warmer but only by a couple degrees. More explanation about this. CO2 coalition on website.

1:08:00 The Deep state cannot continue. **The Fall of the Cabal**. They are predators even on each other. Came as 2 groups, then became 7. Perpetual wars. Mankind used to mine gold so they used humans to go to war.

1:09:20 Q: Nassim Haramein – he is working on a crystalline technology. More of a theorist. They hyperboreans created a vast crystalline tech.

1:10:45 Q: Quantum entanglement. Starlink and Starshield– the targeting info for the drones; why it was cut off in Ukraine. Musk is part of the white hats.

1:11:15 Money will be transferred over if you are a good person, not trafficking humans. The GD and the deep state know everything about you. **Tech way beyond the flock cameras**. 3D maps to your home, your brain, your DNA, what you're thinking. Can go into the dust in the water in your home and observe; can alter your thinking if you're not doing protocols. **Know your thoughts.** Gene studies **Carlos Castaneda** – that book manifested for Gene, his story about that. **Stopping the internal dialog.** Gene's lucid dreaming. No technology; listen.

1:18:30 **Holographic displays of your dreams**. Like Bucegi mountain (tech), interactive. They can interact with you that way. Targeted individual was beta testing. The jab and shedding worldwide, Operation Skyfold, links you to the cloud. Can get in depends on the strength of the link. Near infrared healing is very powerful.

1:21:00 GD - underground system - under Nahanni valley in Canada to Greenland. Why Trump and the alliance want Greenland so badly. There was a 4th Reich base there. The 5th Reich taking over Ceres, gave us Base 211, surrendering - the younger 4th Reich.

1:23:00 They called themselves the 5th Reich, because they wanted to ascend to 5D. Alpha draco descended to negative 5D.

1:25:30 **Medbeds** cannot come through the military. Nick Shirley is getting info from the white hats. Will come out in parts. **Data centers** - what really are and are doing. Jump rooms to medbeds. First must have **declass**. Gene's experience in Mexico with Nassim Haramein. David Rusch - greek/roman gods. They have over 890 species we have materials, crafts, dead bodies, living bodies from. Deep State 3 part plan; Operation Blue Beam was the 3rd along with C19, 500 million or less left. Data Centers will have jump rooms like a code entered into an elevator (hilton hotels..). "We will" means "we have". Anywhere in an hour; because of time to travel to the jump room, otherwise instantaneous. Medbeds are already here (but if released now, we) would have world war and set it back to the stone age with the collapse of the medical system and big pharma. It has to be common knowledge that we aren't alone here and not on a flat disc (ok if you believe it; you can go to 3D earth).

1:31:50 The GD has a **chronovisor**. In the Ingersoll Lockwood book, Lincoln sent someone via underground tunnels to Russia; The Adventures of Baron Von Trump - was little Baron now the Giant Barron. He went to **Lake Baikal**. Where today's **false plague** occurred. Comm. It was owned by the deep part of the Cabal, the City of London. Now in the White Hats hands; Musk tunnel to it from AK. It was built when Kennedy was talking with Kruschev. The deep state took it over back then. Elon built a parallel one and they took it over.

1:36:45 **NCSWIC**. Appeared on their screens - in the 50s when they first started connecting to SI, NCSWIC came up on their screens. Had to shut the system down to stop it, and when they brought it back up, couldn't get into the GD. Lincoln started the white hats. Who is Baron Von Trump? Tesla traveled through timelines; left behind a ghost, an empty shell; his consciousness, soul and spirit traveled to other time lines which merged with this one; he is BVT, Edward Snowden and **Barron Trump**. Snowden went to Russia - no coincidence. Because he is Tesla, and that's where Trump went.
